- Tamara Dufresne – Month of July (\$100.00) Month of August (\$100.00)

Business:

5:20 pm: BD is to check with Water Dept. and Police to see if there is any info on complaint of campers between Comins Pond and property of resident that called with a concern.

5:25 pm: DM recommends a sign for Emmanuel Church with verbiage for potlucks. BOH does not permit them right now so the suggestion is still to put a sign up so members of the church know food is prepared in homes and brought to be shared amongst members.

5:20 pm: TV recommends BOH permit Quaboag Snack Shack but limit based off of their limitations. DM wants different levels of what can be done provided to the Snack Shack. TV recommends that they come up with a plan and she can help them from there. TV & BD are to write a letter and send it to Snack Shack.

5:30 pm: TV & BD follow up on Tanning applications that were sent out, go spend a day in the community

5:51 pm: DM motions for Ken Lacey to remain our PHEP representative, CF seconds, AIF. KL asks if Warren wants iPads.

5:55 pm: DM motions to approve BD to take Food Safety Manager Class, CF seconds, AIF

6:00 pm: Discussion of fee schedule-

- DM suggests moving Tanning Permits to \$75/permit
- KL send DM a list of people qualified for Title 5 review and evaluations

6:45 pm: Noncompliance form from DEP-

- #1 are under Barton & Loguidice – Closure Certification report is deficient, and there is no record of 3rd party inspection reports
- #3 Solid Waste Solutions – waste oil shed was unlocked, solar panel left on the ground, exposed batteries left out in the weather all need to be corrected
- #4 is on Warren- manage vegetation on West Landform

7:15 pm: CF or DM to reach out to Jeremy Olson from Highway to see if he can manage vegetation as a short-term solution. Long term this needs to be included in a contract or begin one with an appropriately qualified landscaping company. CF volunteers to reach out to Jeremy.

7:20 pm: Next meeting date October 28th, 2021

7:28 pm: BD is to double check with treasure that the Town received final judgement on 1061 Main St.

7:30 pm: BD is to reach out to Jeff Blake from KP Law, town counsel regarding 29 Bacon St. in Warren. KL suggests BD and TV go to housing court with them to see the process.

7:42 pm: CF asks KL if he thinks the pep rally at school was a wise choice. He says they are under DESE guidelines

7:45 pm: KL gets ready to close meeting. Mike Baril says he had a request to be put on the agenda and asks why it was denied, there was a misunderstanding in what Mr. Baril wanted to present. Mr. Baril asked for 600 Old West Warren Rd. to be put on the agenda because he is concerned about contamination at the property. According to Mr. Baril, the copart manager doesn't have a hazardous waste permit, the facility doesn't have hazmat equipment and toxic chemicals have been leaking into the ground. Mr. Baril is most concerned with why the Planning Board has not reaching out to the Board of Health about possible contamination. Mr. Baril says 2 Mondays from now is the final hearing to vote on the permit for expansion. KL asks Mr. Baril to get the original complaint put into DEP. Mr. Baril asks for the Health Inspector to go to the site, KL says he is not sending our Health Inspector to the site she is not an industrial hygienist our last Health Inspector had those qualifications.

8:00 pm: DM motions to adjourn meeting, CF seconds, AIF

Respectfully Submitted,

Donald Makowski – Board of Health Clerk
